

19 April 2020

Dearest Edufront Parents,

LiveOnline@Edufront – From 1 May to End of AY2020

Following the authorities' order to suspend all centre-based classes from 27 March, we swiftly activated our Total Learning Support and Continuity Plan so that we can continue to support the learning of our students. The transition wasn't easy though as online teaching and learning arrangement posed many challenges.

We wish that we can resume regular classes as quickly as possible. However, looking at the increasing Covid19 cases in Singapore and all over the world, we may have to accept that it would take some time before centre-based classes may be allowed to operate.

With this in mind, we have developed a comprehensive programme called **LiveOnline@Edufront** which would enable us to support our students' education needs in preparation for the End of Year and National Exams such as the PSLE, O-Levels and the N-Levels. We are very thankful for the valuable feedback from parents and students which have enabled us to make continuous enhancements to the quality of our online programmes and services.

1. More Live Online Lessons Schedule and Recorded Lessons for Unlimited Recap

We have been able to double the frequency of our live online lessons and gotten more tutors onboard. Please refer to Annex A, for the new live online lesson schedule which will take effect from 1 May onwards. Parents will need to re-register for the preferred slots by clicking the link below:

- [Primary Programmes](#)
- [Secondary Programmes](#)

Invitation links to the live online lessons will be made available to registered students via our Learning Management System (LMS). All live lessons are recorded and uploaded onto our LMS for unlimited lesson recap. If your child is not able to attend any of the available live online lessons slots, you may opt to have access to only the recorded lessons at 20% off regular tuition fees.

2. Enhanced Student Learning Powered by Learning Management System (LMS)

We have recently engaged Wizlearn Technologies (<https://www.wizlearn.com>), a leading e-learning solutions company in Singapore, to provide us with a Learning Management System (LMS). From May onwards, all our students would be given access to the LMS. <https://lms.wizlearn.com/edufont>

Key features of the LMS includes:

- exclusive access to learning materials and resources
- better organisation and management of learning resources
- homework submission and tracking
- discussion forums
- mobile responsive LMS
- ability to create interactive quizzes and assessments

3. After Class Support

In addition to the weekly live online lessons, students will be able to access the recorded lessons via our LMS for unlimited lesson recap at their own pace and at any time of the day.

We will also be providing a daily homework support helpline for our students via the forum discussion feature in the LMS.

Outside the Circuit Breaker period, we will continue to provide monthly printing and home delivery of materials.

4. Lower Fee Structure but Better Value

Despite the huge investment in web-conferencing tools and Learning Management System (LMS) to support our LiveOnline@Edufront programmes, we are able to significantly lower our monthly fee structure. In addition, parents who continue to support us and believe in our programmes can look forward to the following:

- Multiple subject discounts (up to 20% off monthly fees)
- \$50 off fees in April and in the last month of the academic year (either Sep or Oct)
- 2 x \$50 holiday workshop discount vouchers per registered programme

5. Priority Re-registration for Current Students

We would like to invite our parents to re-register for the preferred live online lessons slots by clicking the link below. You may also choose to Add On new programmes or Drop existing ones via the same form. The new schedule will take effect from 1 May until the end of AY2020.

For Primary Programmes click [HERE](#)

For Secondary Programmes click [HERE](#)

Kindly complete the re-registration by **22 April** so that we will have enough time to process and issue the userID and password for the LMS.

We would like to thank parents for your support. For suggestions, feedback and enquiries, you may get in touch with me directly or with our respective Centre Coordinators (<https://edufont.com/contact/>) during our regular opening hours.

Warmest regards,

Yang Iskandar (Mr)
Principal
Edufront Learning Centre

Live Online Lesson Schedule @ Edufront (From 1 May onwards)

| | Day | Time | Programme |
|----------|------------|--------------|---------------------------|

| Sunday | 6pm-7.30pm | S4 Physics | |

- Invitation link will be available to registered students via our LMS
- As this is a web-based platform, you would only need a computer with internet connection and speaker to participate. No downloading of software is needed.
- All live lessons will be recorded and the link to the videos will be uploaded on our LMS.
